

The Lookin saddles address the cyclist looking for the greatest level of gel comfort.

The Lookin saddles combine 2 new comfort features: the innovative cool cover, which keeps the saddle cover up to 25°C cooler in the sun, and Royalgel™. Laboratory tests prove that our new cool cover can keep the saddle's temperature 25°C lower, reducing the unpleasant feeling of sitting on a hot surface. Scientific tests prove that Royalgel™ reduces pressure on the prostate / pubis, and sit bone areas by up to 80%.

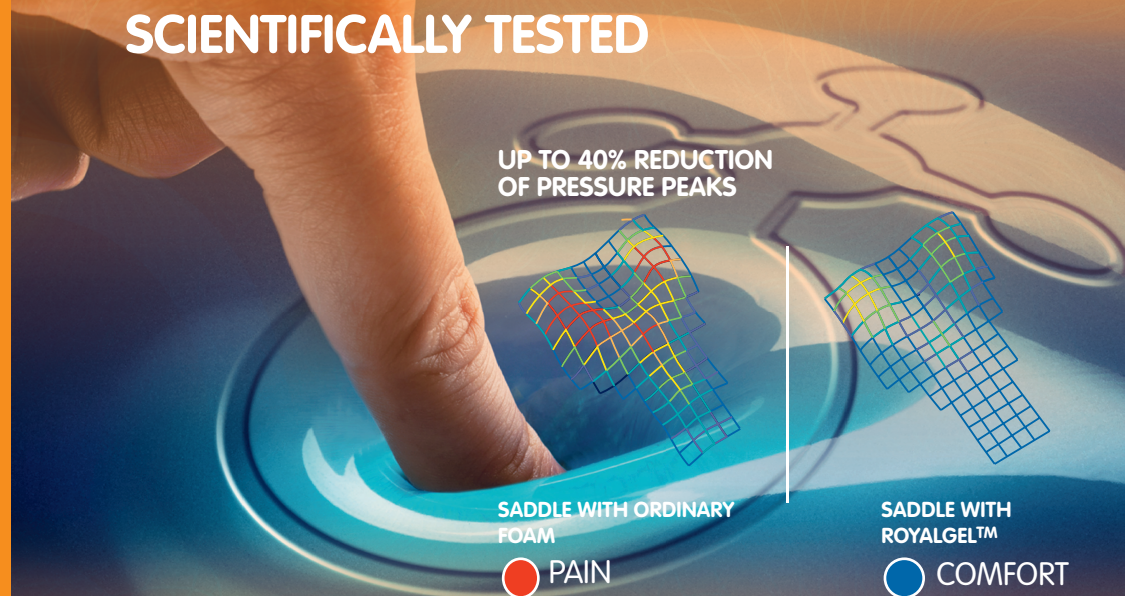

That's maximum gel comfort, guaranteed.

COOL COVER UP TO 25°C COOLER IN SUNLIGHT

ROYALGEL™ MAXIMUM COMFORT, SCIENTIFICALLY TESTED

Pressure Distribution Test.

Scientific tests have proven that Royalgel™ padding reduces peak pressure on the prostate/pubis and ischial areas by up to 40% compared to other gel and non-gel saddles, providing the maximum level of comfort. Royalgel™ is the only gel which does not age, harden or migrate.
